

Total Resource Management

Facilitating environmental sustainability for the benefit of communities and future generations

Forest Professional (RPF or RFT) for Clearing and Access Projects in the Energy Sector

Maple Leaf Forestry Ltd. is a well-established natural resource consultant providing services to our clients in the forest, mining, utility, and energy sectors throughout BC. Our head office is located in Cranbrook, BC, and we are hiring experienced Forest Professionals keen to work on clearing and access related projects in the energy sector across BC. This is a remote position with flexible shifts on-site for field work, and office work can be done from the Forest Professional's home office. Travel to and from the project location, accommodation and meal (LOA) costs are paid for by the company. **Relocation is not required.** The Forest Professional can be hired on as an **employee or consultant.**

The Forest Professional will work on either the clearing and access planning/development phase, the construction implementation phase, or both phases of the project, depending on the Forest Professionals background, experience, and areas of expertise.

If you are interested in this opportunity and would like to hear more, please reach out to Shane Holley, RFT – General Manager to schedule a time (phone call or virtual Teams meeting) to discuss the opportunity further.

I look forward to hearing from you.

Thank you,

Shane Holley, RFT
General Manager
